**Re: WHMIS**

Dear Jinpeng Zhu,

On behalf of Organizational Development and Health, Safety and Environment, Human Resources, Health, Safety and Environment, congratulations on completing WHMIS. This asynchronous eLearning module is designed for all individuals who work in lab settings on campus and work with or who are in proximity to controlled products.

The [Culture of Care](#), the University of Alberta three-year safety action plan is based on health and safety as a core value within the university community. With this training, you are able to better apply these understandings to your workplace or lab:

- WHMIS program
- Pictograms and Labels
- Safety Data sheets

Completion of WHMIS demonstrates your commitment to collaborate in the creation of a safe physical, psychological and culturally safe workplace where everyone owns their safety performance and that of others so we all go home safely each day. Please keep a copy of this letter to share your training completion. We encourage you to apply your training in your workplace and to become a champion for workplace health and safety.

Kind Regards,

*Zhengwei Xu*
